I søgehistorikken kan du se, hvad du har søgt, og hvor mange resultater der er. Søgeresultaterne ses længere nede på siden, hvorfra der kan læses abstracts m.m. De er rangordnet efter dato, således at de nyeste referencer vises først.

I stedet for emnesøgning kan der vælges at søge efter *forfatter, titel eller tidsskrift*.

Søgefelt (Search Fields)

Vælg Search Fields – her kan du bygge en søgning op ved brug af specifikke felter. F.eks forfatter, titel, abstract og mange flere. Det er også her du kan bruge nærhedsoperatorene, som beskrives senere. Foretag dine valg og slut med Search
