Answer Clinical Questions with UpToDate®

1 Enter a Keyword or Phrase
Be specific for best results

See a full list of Lab Interpretation.¹

View Practice Changing UpDates (PCUs).

Learn "What's New" by specialty.

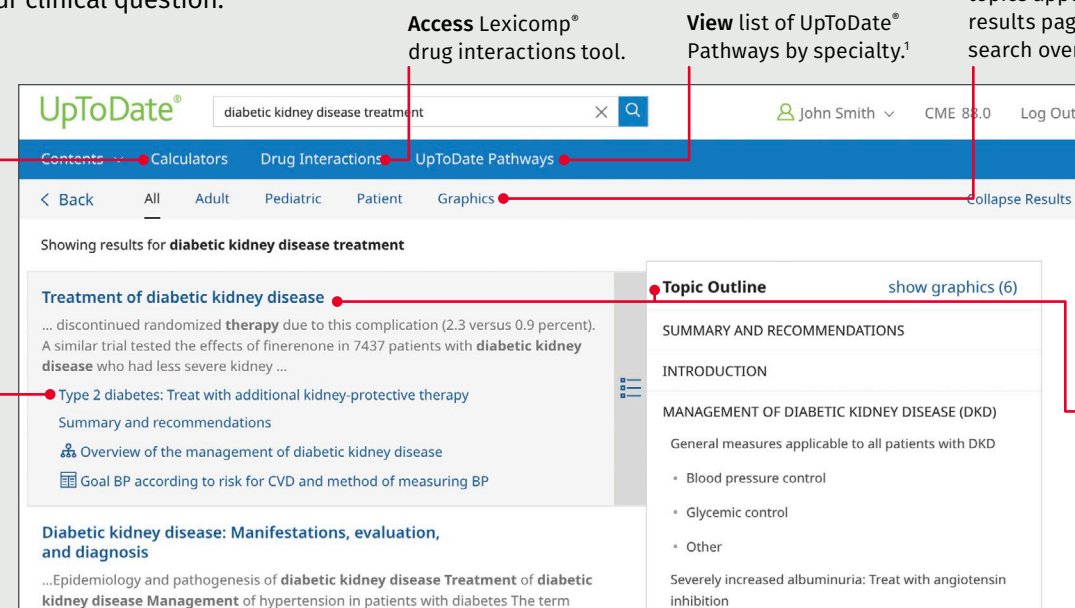

Search with auto-complete.

Modify your user name and password or update your account information.

Search UpToDate topics in multiple languages.

Revisit information you find most valuable.

2 Review Search Results
Results display the topics, sections and graphics that are most likely to answer your clinical question.

Calculate many different medical measures.

Use subsections for easy navigation.

Access Lexicomp® drug interactions tool.

View list of UpToDate® Pathways by specialty.¹

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

Personalize your view by collapsing or expanding results or hiding the topic outline.

Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

3

Research the Topic

More than 12,300 evidence-based medical topics provide the information you need for optimal patient care.

View a detailed outline within each topic.

Link to information about authors and editors.

View notification(s) of clinically significant change to topic.

Search for a word or synonym within a topic.

Share topics with your colleagues or patients.

Click to go directly to summary and treatment recommendations.

Click on a heading to go directly to the information you need.

Access related topics to find additional information.

View all graphics associated with a topic in a thumbnail format.

Accrue free CME/CE/CPD credits.

View formulary status when prescribing medications.²

Bookmark content for quicker access.

Print text, references, graphics or the entire topic.

Complete CME reflection questions in-topic.

View the date that the topic was last modified, based on continuous review of the latest research.

Provide valuable feedback by submitting questions and comments to our editors.

Click to view a Medline abstract with full text when available.

The screenshot shows the UpToDate interface for the topic 'Treatment of diabetic kidney disease'. At the top, there is a search bar with the text 'diabetic kidney disease treatment' and a user profile for 'John Smith' with 'CME 88.5' and a 'Log Out' button. Below the search bar are navigation tabs: 'Contents', 'Calculators', 'Drug Interactions', and 'UpToDate Pathways'. The main content area is titled 'Treatment of diabetic kidney disease' and includes author information (Vlado Perkovic, Sunil V Badve, George L Bakris), section editors (Richard J Glassock, David M Nathan), and a deputy editor (John P Forman). A 'What's New' section highlights a recent update: 'Finerenone in patients with type 2 diabetes and less severe diabetic kidney disease (January 2022)'. The 'Introduction' section discusses chronic kidney disease (CKD) and its staging. A 'Topic Feedback' button is visible on the right side of the page.

Note: Visual depicts a registered user accessing UpToDate and accruing CME credit

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool. To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit www.uptodate.com/cme for the most current list of CME requirements. It is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.

¹Lab Interpretation and UpToDate® Pathways are part of UpToDate® Advanced and can be added to UpToDate subscriptions for a fee. They are not available as standalone solutions.

²Formulink formulary management integration can be added to UpToDate subscriptions for a fee.
